

## Stand for Poseidon Mk6 and Se7en

The stand fits into the canister as seen below

Let it slip down as seen above

Mounting can be done with the Poseidon backplate kit for example

Round screws with a square cab be fitted to the square holes in cases you need a different distance.

Also the holders are adjustable, take care always 2 of the 5mm allen key screws hold one holder.

in case using the newer quick holders, take care the pin is on top and nt on the lower part
